

Catskill Park All Trails Patch Qualifications and Application

To qualify for the Catskill Mountain Club's **Catskill Park All Trails Patch**, all of the 87 listed hiking trails in the Catskill Park must be hiked completely. Only those trails listed must be hiked. You can download the list at the CMC website and use it to maintain records. (The list refers to the Catskills Map set published by the NY-NJ Trail Conference, which can be purchased online or at many local outfitters and bookstores.)

You must keep records of your qualifying hikes in order to have them count towards satisfying the requirements. You may hike the trails in any order, including breaking them into segments which you hike on separate occasions. You may also count trails that you have hiked in the past as long as you can document when you hiked the trail.

Upon meeting the requirements, fill in the **application form** on the bottom of this page. You must certify that you have personally and completely satisfied all of the requirements to qualify for the award.

Qualifiers will be awarded a personalized numbered Certificate indicating the order of their acceptance, a Catskill Park All Trails patch and a Catskill Park All Trails shirt. Qualifiers must **join the Catskill Mountain Club** as dues paying members in order to receive the awards. In addition, you will receive all of the regular benefits of CMC membership, including a CMC embroidered patch and a membership card that entitles you to discounts at area merchants. See the membership page on the website for complete information.

Send your completed application and a copy of your trail list showing when you hiked to: activities@catskillmountainclub.org or mail them to:

Catskill Mountain Club
